

### Function Drinks!

Froggy and I had our big night out on Saturday.... I worked a club and he came along for the ride. Partying with me takes *training* and poor Froggy wasn't up for it! I wish I would have known about **Function Drinks** before; they're the hangover remedy for all the Hollywood hotties! **Function's Urban Detox** corrects nutritional deficiencies from excess alcohol consumption and supports your liver and immune system. Well, my poor liver needs all the support it can get so I'll take 2 cases please! If you wanna check out **Function Drinks** head over to their website for more info: [www.functiondrinks.com](http://www.functiondrinks.com)!
